

Crystal Clear One

Ice Maker Water Treatment

- 70% of all ice maker problems are caused by poor water quality and hard water deposits. Model CC1 will minimize scale delimiting and unreliable ice maker performance.
- The CC1 incorporates carbon and multi-stage filtration to ensure the ice is free from particulates and bad taste.

BENEFITS

- Reduce ice maker service costs
- No cartridge activation
- Filter can be installed in any position
- 5 micron filtration
- Activated carbon
- Extends life of the ice maker
- Protects ice bin and other metal parts in the ice maker
- Boosts ice maker function at full capacity

CC1

Capacity	For all ice makers up to 600 lbs. per day/cuber
Maximum Pressure	125 psi non shock
Maximum Temperature	100°F
Flow Rate	2.25 gpm
Dimensions	27" W x 4" H
Fittings	3/8" Flare or Easy Connect
Shipping Weight	4 lbs.
Replacement Cartridge	CC1R

The CC1 improves ice maker efficiency, ice production and reduces ice maker maintenance.

The filter includes:

1. Polyphosphate - ideal for controlling low scale forming water.
2. Activated Carbon - controls chlorine.
3. Filtration - controls suspended particles.
